## Scope

This document checks linked headings, figure numbers and references.

## Validation

The synthetic input has eight valid records and two exceptions. Keeping processing steps is discussed in [1].

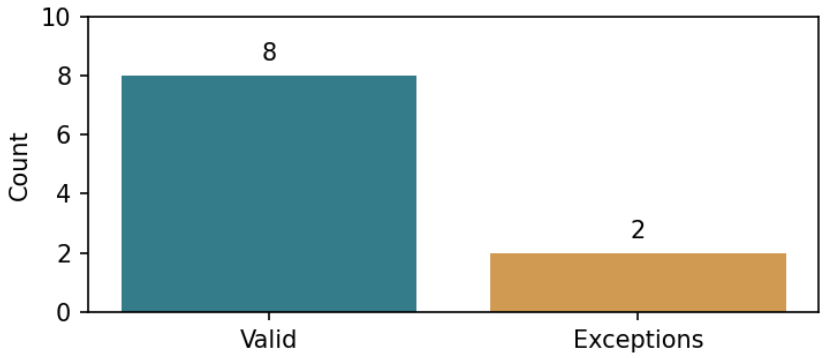

Figure 1. Input validation counts.

## Results

Synthetic team totals are shown below. Values are counts, not observed outcomes.

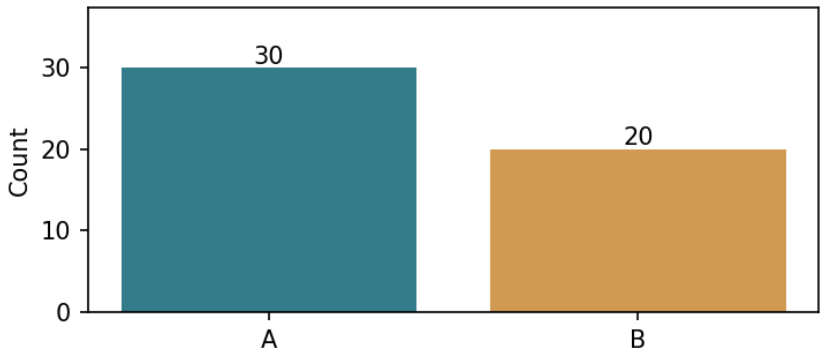

Figure 2. Main result: A 30, B 20.

See Figure 2 for the main result.

The table of contents uses heading styles [2].
